

ApexCloud Enterprise SLA & Support Policy

Document Ref: SLA-ENT-2026 | Classification: Customer Facing

1. Service Level Agreement (SLA) Commitments

ApexCloud guarantees a 99.99% monthly Service Availability uptime percentage for all Enterprise and Business tier customers. Availability is calculated on a calendar month basis excluding scheduled maintenance windows announced at least 72 hours in advance. If ApexCloud fails to meet the guaranteed 99.99% uptime target, eligible customers receive Service Level Credits: - 99.90% to 99.98% uptime: 10% credit applied to next monthly invoice. - 99.00% to 99.89% uptime: 25% credit applied to next monthly invoice. - Below 99.00% uptime: 50% credit applied to next monthly invoice. Credit requests must be submitted within thirty (30) days of the affected calendar month.

2. Incident Severity Levels & Response Times

ApexCloud categorizes support requests into four severity tiers:

- * Severity 1 (Critical Outage): Catastrophic event causing complete disruption of core platform services for all or majority of users. Guaranteed Initial Response Time: 15 minutes. 24x7 continuous engineering escalation until resolution.
- * Severity 2 (Major Impairment): Severe degradation of critical functionality with no viable workaround. Guaranteed Initial Response Time: 1 hour. Active escalation during business hours.
- * Severity 3 (Minor Issue): Non-critical feature failure or system impairment with an available workaround. Guaranteed Initial Response Time: 4 business hours.
- * Severity 4 (General Inquiry): General configuration questions, feature requests, or documentation clarification. Guaranteed Initial Response Time: 12 business hours.

3. Human Support Handoff & Escalation Procedure

When customer inquiries cannot be resolved through the AI Assistant or when automated answers do not fulfill the query, customers can seamlessly transition to a human support agent. The escalation process automatically transmits the customer name, corporate email address, full conversation transcript, and system diagnostic telemetry directly to our Tier 2 Support Engineering queue. For urgent issues, enterprise customers may also call our emergency phone hotline at +1 (800) 555-APEX available 24/7/365.

4. Data Backup & Disaster Recovery (DR)

ApexCloud executes automated continuous point-in-time database backups with a Recovery Point Objective (RPO) of under 5 minutes. Full snapshot backups are replicated across multi-region availability zones daily. Our Recovery Time Objective (RTO) for full catastrophic failover is guaranteed at under 60 minutes. Disaster recovery simulations are conducted quarterly and compliance audit summaries are published to customer trust portals.
